

So I solve so fast calculators can't define me  
math debris's all behind me  
What's 50 A plus to a scholar like me  
can you please remind me?  
(Solve so fast) This is crazy  
skills so boss you can't graze me  
You boast mad skills but ur  $\sqrt{2}$  and I'd look at you like man you crazy  
(Solve so fast) My math sick  
don't come to me with your kid tricks  
(Solve so fast) I'm just here  
blasting through the arithmetic  
Geometry: I'm able to solve area, take your pick  
Lateral, Triangle, Hexagon, Sides 6

(Solve so fast) Got an octagon, Pi number goes on and on  
Polygons with congruent sides, putting to work all my neurons  
(Solve so fast) You smart too?  
You better know one prime is two  
You study hard what I expect  
you'll be in L1 getting A plus too  
(Solve so fast) You be sweatin  
working hard for all 5 days  
Right angles, math symbols, Algebra is my forte  
(Solve so fast) Kid, behave, don't mess with Urib-eyy  
Bring your, A game, Not getting ya way, not BK

[Hook]

Solve so fast calculators can't define me  
(That so cray, that so cray, that so cray)  
Solve so fast calculators can't define me  
(That so cray, that so cray, that so cray)

Verse 2

Teach asked if I can ~~you~~ calculate it all?  
I said, "Man, my numbers pouring like rainfall  
I'll come meet you in L1 Study Hall.  
And soon my test will be posted on your wall"

(Solve so fast) That so cray, that so cray, got an A-yy? Got the bonus, got the bonus, that's insane

Yo' class so cold – freeze my brain  
Act like you'll never be around mathematicians like this again  
Postulates rules don't change, prove your work, it's not by chance  
Do your work or don't advance, I'm just sayin'

If you ain't do it right then come ask me  
Cause if you don't, you gonna fail the test so badly  
Why tired of figgas (figures)? You zombie, like Thrilla?  
What's wrong, my fella? Don't be sc'rred, don't be yella  
Teachers say I'm the smartest, cause my skills' are the illest  
Got my Math peers in L1 and they going gorillas, huh
